Levels of relative bat activity by site

- Common Pipistrelle
- Soprano Pipistrelle

A photograph of a bee in flight over a field of flowers. The bee is positioned in the lower center, flying towards the right. Above it is a white speech bubble with a blue outline containing the text "Thank you!". The background is a soft-focus field of white daisies with yellow centers. A single blue cornflower is in sharp focus in the lower right foreground. A large, out-of-focus red flower is visible in the upper left background.

Thank  
you!
